

# UTERINE EVACUATION IN CRISIS SETTINGS USING MEDICATIONS AND MANUAL VACUUM ASPIRATION

## COURSE EVALUATION

**Dates:** \_\_\_\_\_ **Location:** \_\_\_\_\_

**Training Goal:** To develop participants' competence to provide uterine evacuation for women in crisis settings using medications and manual vacuum aspiration (MVA).

**Learning Objectives:** By the end of this training participants should be able to:

- Explain why uterine evacuation is an essential part of reproductive health services in crisis settings.
- Counsel women seeking abortion in crisis settings.
- Provide uterine evacuation for women in crisis settings using medications and/or manual vacuum aspiration.
- Recognize and manage women who develop complications from uterine evacuation with medications or manual vacuum aspiration.
- Integrate uterine evacuation with medications and manual vacuum aspiration into their present reproductive health services and organize and monitor the services.

Please rate the course on each item below using the following scale. Please use the comments section to provide more information about the rating and suggestions for improvement.

**4** = strongly agree   **3** = agree   **2** = disagree   **1** = strongly disagree

Questions	Rating	Comments
1. The course fulfilled its goal and objectives (see above).		
2. The course was well-organized.		
3. The trainers were responsive to participants' needs.		
4. The trainers used effective training methods.		
5. The training materials (handouts, slides, worksheets, tests, etc.) were effective.		
6. There were adequate opportunities for discussion.		
7. The physical facilities were conducive to learning and sharing.		
8. The travel, lodging, and other logistical arrangements were satisfactory.		
9. Because of this course, I have a better understanding of high-quality, woman-centered abortion care.		
10. Because of this training, I will provide high-quality, woman-centered abortion care when I provide abortion services.		

Name at least three specific things you will do differently as a result of this course to provide high-quality, woman-centered abortion-care services.

1.

2.

3.

What suggestions can you offer to improve this course in the future?
